Suction Yankauer 2mm, 11 1/4in

Common Uses:

Abdominal Surgery, Caesarian Surgery, Anesthesia for Oral Suctioning, and Vascular Surgery

Properties:

- Multi-hole, bulbous tip
- Multi-angled shaft
- Suction source adaptor

- Material: Reusable Metal OR Single Use Plastic
- Length: 8IN - 17IN
- Tip Opening: 2mm - 5mm

Function:

Used to suction oropharyngeal secretions to prevent aspiration during surgery or to clear the operative region. The bulbous head is designed to prevent damage to surrounding tissue, while the curved shaft allows easy access to the region of interest.

Did you know?

The Yankauer Suction has become the most widely used medical suction tool in the world.
