Bookwalter**Retractor**

Length: 2 1/2 X 3 in

Inventor: Dr. John Bookwalter

EST.
1964

Retractor Bookwalter Balfour Blade 2 1/2 X 3 in, Curved

Common Uses:

Urology and General Surgery. Renal Transplant and Radical Cystectomy (Bladder Removal).

Properties:

- Blade Type: Balfour
- Width x Depth: 3 x 2 1/2 in
- Curved

Function:

Self-retaining retractor system that is anchored to the operating table. They are used to hold an incision open, hold back tissues or other objects to maintain a clear surgical field, or reach other structures.

Did you know?

In 1964, Dr. Bookwalter was inspired to invent the mechanically held retractors when he fell asleep holding a retractor in the OR.
